PROFESSIONAL EXPERIENCE

SENIOR TECHNICAL WRITER (CONTRACT), Savannah, TN/Sewell, NJ **1990 – Present**

Deliver customized technical documentation and technical training courses for all projects. Specializing in software documentation and training, technical capability statements, responses to requests for proposals (RFPs), and patent submissions.

- Create documentation for software and hardware, increasing client peace of mind, reducing technical support costs, and elevating customer product experience.
- Create and deliver technical training courses, heightening employee knowledge and reducing operational errors.
- Create patent documentation, acquiring temporary and permanent patents for clients.
- Respond to RFPs, previously winning multiple military contracts over 2 years, totaling >\$100M.

ECODIGITAL, LLC, Alpharetta, GA

2019 – Present

Senior Technical Writer

As a contractor to EcoDigital, LLC, as sole technical writer, provide technical writing services for all on-premise and cloud-based DIVA Suite products, used by 1000s of network television broadcast engineers globally, customer support, DIVA delivery and installation personnel, and DIVA development engineering team.

- Create and update all documentation for all DIVA products, reducing time spent on customer service and technical support calls, lowering development costs, and accelerating product releases.
- Maintain document library structure and content, facilitating quick and easy location of product information.
- Produce DIVA documentation using FrameMaker (publishing to Adobe .pdf format), conforming to required company formatting, and affording faster and easier document updates.
- Edit and proofread documentation, improving technical accuracy while reducing spelling and grammatical issues, ultimately minimizing production time and cost.

THE ORPHEUS COMPANIES, LTD, Greenville, DE**2017 – 2019****Senior Technical Writer and Project Manager**

As a full-time contractor to The Orpheus Companies, Ltd provided technical writing and project management services for major Amtrak contracts, and technical assistance to additional clients. Tasks included scheduling site visits, assisting contractors and Amtrak employees in coordinating site visits, holding weekly conference calls, writing technical reports, providing technical support to additional clients, client website development and administration, and other various duties.

ORACLE CORPORATION, Redwood City, CA**2014 – 2017****Senior Technical Writer**

Served as member of Storage Tape Technical Publications Team, Digital Media Solutions Development Team, and DIVA Products Program Management Team. Was sole technical writer for all on-premise and cloud-based DIVA products, used by 1000s of network television broadcast engineers globally, Oracle customer support, Oracle DIVA delivery and installation personnel, and Oracle DIVA development engineers. Documentation translated into 7 different languages.

- Created and updated all documentation for all DIVA products, reducing time spent on customer service and technical support calls, lowering development costs, and accelerating product releases.
- Maintained multiple document libraries' structure and content, facilitating quick and easy location of product information.
- Migrated existing DIVA documentation from Word to FrameMaker, conforming to required company formatting and affording faster and easier document updates.
- Edited and proofread documentation, improving technical accuracy while reducing spelling and grammatical issues, ultimately minimizing production time and cost.
